

MAGICARD

This compact, attractive printer is great for all high-visibility environments, such as company reception areas and retail applications. So small and light (only 7lb/3.2kg) it is easily portable.

Just add your own PC and web-cam and you are ready to print edge-to-edge full color ID cards.

The best value all-in-one solution for color ID card printing

Software included

Magicard ID badging software with card design and database facilities.

Opera

Color ID Card Printer with Badging Software

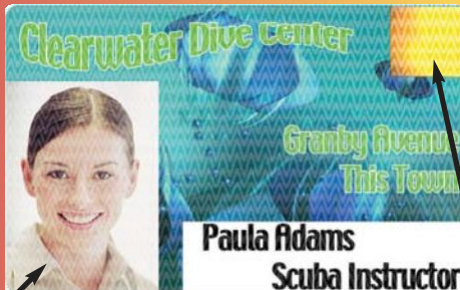

Edge-to-edge full color printing

High quality 300dpi image, printed right to the edge of the card in only 30 seconds.

Mag stripe encoding

Opera 105 includes built-in magstripe encoder.

HoloKote™ is an anti-counterfeiting watermark across the entire card surface,

that becomes visible when the card is viewed at an angle. With the Opera, a standard 'waves' design is printed.

HoloPatch™

works with HoloKote™ to produce a highly-visible gold seal on the card, printed using special card stock.

CONSUMABLES

Card Dispenser

For optimum print quality, keep cards clean with the 50 card capacity card dispenser.

Drop in ribbon

Simple drop-in ribbon cassette comes in 50 shot color or 500 shot monochrome types.

MAGICARD ID BADGING SOFTWARE

(INCLUDED WITH OPERA 100)

- Choose from several standard card designs and backgrounds, or do a full custom design.
- Database with search facility (limited to 50 entries).
- Barcode fonts included.

MAGICARD ID PROFESSIONAL BADGING SOFTWARE

(INCLUDED WITH OPERA 105, AVAILABLE OPTION FOR OPERA 100)

- Supports database import/export, unlimited database entries, and magnetic stripe card encoding.
